POP ART EXTRAVAGANZA

GLOD X HERMITAGE

HERMITAGE

POP ART EXTRAVAGANZA with the Viennese artist Marcin Glod from June 14 to August 31

Inspired by the first floating gallery on the lake Wörthersee in 2023, the art spectacle "Pop Art Extravaganza" by Viennese artist Marcin GLOD will take place this year at HERMITAGE Lake Lucerne.

For the opening on June 15 & 16, the HERMITAGE Beach Club with its trees and the historic boathouse right on the water will provide a unique backdrop for this extraordinary exhibition. A special highlight will be the exclusive live painting of four surfboards, which perfectly captures the relaxed atmosphere of the beach club. Visitors will also have the unique opportunity to bring along personal items that Glod will customize and refine on site, making the opening an unforgettable experience.

The four painted boards will remain at the Beach Club throughout the summer, while the exhibition of artwork will continue at Hotel HERMITAGE until August 31. Guests will therefore have the opportunity to immerse themselves in the fascinating world of pop art throughout the summer and enjoy Marcin Glod's creative works in an exceptional setting.

ABOUT THE ARTIST

GLOD

Marcin Glod (*born 1994, Krakow), studied graphic and communication design at the Graphic Design Academy in Vienna. Glod initially pursued a successful career as a graphic designer and creative director in his own branding design studio in Vienna.

He had his breakthrough in the art scene with his first art exhibition in Vienna at the end of 2019. This was followed by solo exhibitions in cities such as Amsterdam, Basel, Berlin, Dubai, Innsbruck, London, Hamburg, Munich and Warsaw. This was also followed by collaborations with global brands and the publication of his first book "Beginnings" with over 220 pages.

Glod's artworks are a combination of different styles and methods; the combination of street art, graffiti and painting allows the artist to show a broad spectrum of creativity. Pop culture references are a big part of his style and can be discovered in almost all of his works. The frequent use of iconic figures and symbols visualizes the artist's engagement with current events and social developments.

The use of different media, from canvases to disposable items such as cardboard or other objects that have already been used, sheds light on the importance of sustainability in the art world.

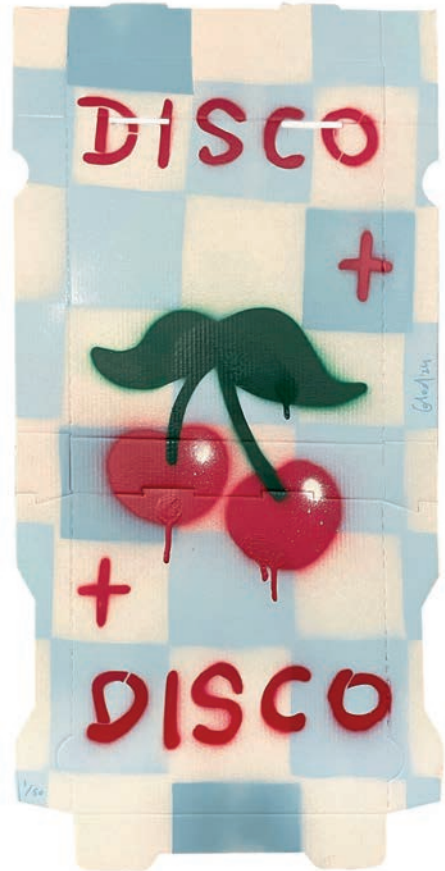

In addition to his artistic successes, he opened his first own pop-up gallery in Vienna's city center for 12 months at the beginning of 2023 to support young up-and-coming artists.
